THE POLYAMIDE PROMISE

Stabamid® 6.10: You are entering a world of high performances...

STABAMID® 6.10: A UNIQUE OFFER

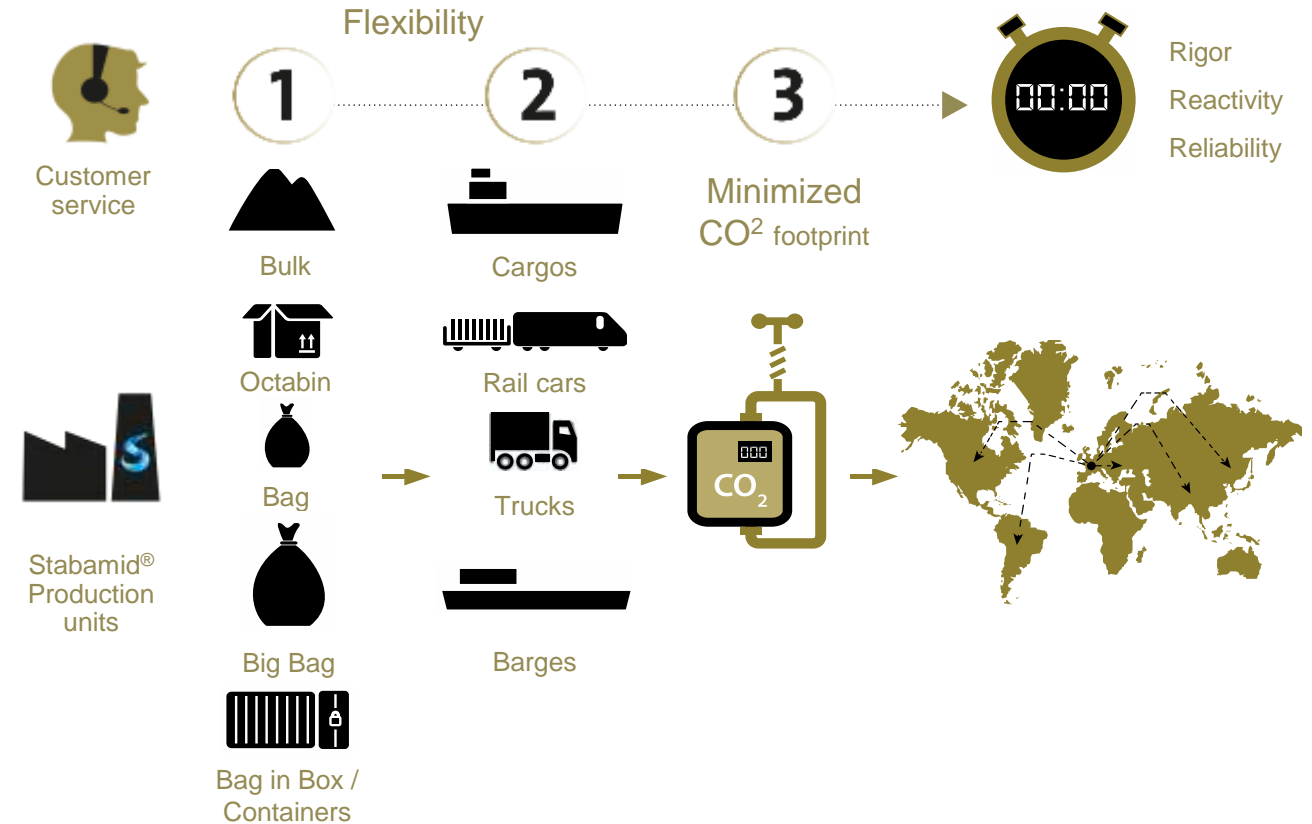

UNIQUE EXPERTISE

- Being an integrated supplier with a complete value chain
- A unique know-how
- 60 years of experience in the polyamide process
- An innovative and proactive partner

UNIQUE PRODUCTS & SERVICES

- Consistently high quality products, whatever the quantities
- Worldwide supplies
- Worldwide customer service & operational excellence
- Technical Support and Product Implementation
- Customer collaboration and co-conception

Unique supply chain solutions

FROM ORDER TO DELIVERY, WHATEVER YOUR
LOCATION IS, WE PROVIDE YOU THE BEST OFFER

STABAMID® 6.10 - STABAMID® 6.12 : THE BEST PERFORMANCE / COST RATIO

STABAMID® 6.10 AND STABAMID® 6.12 : BEST IN CLASS COMPARED TO SOME OTHER HIGH PERFORMANCE POLYAMIDES

STABAMID® 6.10: FOR HIGH DEMAND APPLICATIONS

HIGH THERMAL RESISTANCE

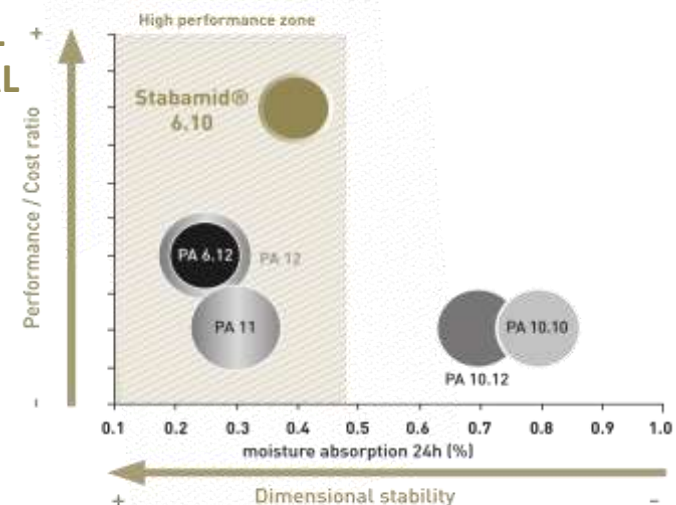

Stabamid® 6.10 is suitable for applications that require high thermal resistance.

Source: Solvay marketing studies

EXCEPTIONAL DIMENSIONAL STABILITY

Stabamid® 6.10 provides an exceptional dimensional stability to your products thanks to low moisture absorption.

GOING FURTHER !

Customize your Stabamid® 6.10 for outstanding applications

Properties		Standard	UPON REQUEST
			Customized
Viscosity Index (formic acid 90%)	mL/g	118 ↔ 160	≤ 118 or ≥ 160
Moisture content	%	Dry 0.075 - Standard ≤ 0.35	Dry or extra dry
Granulometry	g/100 grains	1.5 ↔ 2.25	Specific granulometry
Black spots >0,3 mm, <1 mm	Black spots /kg max	Max. 5	Close to 0

Over its long history, Solvay Polyamide & Intermediates has developed strong expertise in polyamides. This know-how allows us to create polyamides which meet high demand requirements.
